ASTROLOGY: ancient wisdom for modern life

Celine Brun

Friday 8 August, 10 - 11am

Astrology is more than horoscopes - it's a practical, time-tested tool for understanding ourselves, others and life's patterns and turning points. By exploring the birth charts of some well-known people we'll look into the relevance of astrology in revealing personality traits, natural talents, life's challenges and even existential preoccupations. Also discover how planetary cycles can offer perspective on change, timing, and personal growth. No prior knowledge needed - just curiosity and a sense of wonder.

MULTILATERAL DIPLOMACY

Anna George

Friday 15 August, 10 - 11am

Are you interested in understanding the political drivers underpinning international negotiations? Ongoing negotiations within the UN and other International Agencies affect the development and implementation of standards, guidelines, human and labour rights, food safety and new policy thinking that can impact upon social, environment, health, economic and security agendas. Former ambassador and multilateral negotiator Anna George will discuss the importance of being able to read the underlying dynamics, tease out the politically sensitive points of difference not generally aired in normal public discourse, and understand the diplomatic clout attached to these positions.

PEOPLE AND PLANTS OF THE SWAN RIVER COLONY

Dr Neville Marchant AM

Monday 11 August, 10 - 11am

The first European settlers to arrive in WA confronted a species-rich, virtually unknown, diverse flora. James Drummond arrived in the 'Parmelia' in 1829 and played a key role in the development of agriculture and horticulture in the Colony. It took more than ten years for his fellow colonists to accept his observations that native poisonous plants were the cause of death of valued animal stock. Drummond became an indefatigable collector of south western plant species and seeds, making the incredible south west flora globally respected. Prior to his retirement Dr Neville Marchant was Head of the WA herbarium.

MALTA AND GOZO ISLANDS - don't be fooled by their size!

Jane Cousins

Thursday 14 August, 10 - 11.15am

Malta and Gozo are two tiny islands sitting just off the coast of Sicily between Europe, North Africa and the Middle East. Located strategically at the crossroads of civilisations for thousands of years, they have one of the richest and most interesting histories in the Mediterranean. They have hosted the Romans, Arabs, Knights of St. John,

A NOT-SO-SHORT HISTORY OF GLYDE-IN

Thursday August 21, 10 - 11.15am

John Black and Jono Farmer

Our story begins with the emigration of the Peterson family from Sweden to Fremantle in 1891, where Franz Peterson acquired and built a cottage on 42 Glyde St in which to raise he and his wife Maria's seven children. Since 1940 when it was sold by the Peterson family, Number 42 has had six owners, the last of which was the Town of East Fremantle who in 1981 'loaned' it to the fledgling Glyde-In Community Learning Centre. With John's knowledge of his ancestor

EPISODES IN THE HISTORY OF GREENLAND **AS8**

David Robinson

Saturday 23 August, 2 - 3pm

With a tiny population, at the edge of the world, the inhospitable ice-sheets of Greenland are often beyond most people's thoughts. This year, Greenland has been thrust into the popular consciousness due to the particular interest of the current American President in annexing the territory to the United States. In an attempt to understand the context of current events, historian David has engaged in a research journey to understand more about Greenland, its people and its history, and in doing so found stories of Greenland's past as dramatic as its landscape. These episodes from Greenland's history will shed some light on the deep history of Greenland's relationship with the world, and perhaps its future direction.

A (re)introduction to Perth and the Swan Coastal Plain

Sally Thompson, UWA

Tuesday 9 September, 2 - 3pm

Sally will help you see Perth and the Swan Coastal Plain through new eyes, exploring how great changes on planet Earth – from the rupture of the Gondwanan super continent, the changing climate over Australia as the continent migrated north, and the rising and falling of the sea levels across ice ages and climatic epochs created the unique place we live in today. You'll learn why we won't find a stegosaurus fossil in our backyard, why our rivers are too small for their valleys and have – in some cases – turned upside down! – and consider how this history leaves us with a legacy of extraordinary biodiversity, fragility and beauty.

HOW PHILOSOPHY HAS CHANGED THE WORLD BN1

Meera Finnigan

8 Thursdays: 31 July - 18 September, 1 - 3pm

This course will look at the significant ideas that reflect humanity's search for truth, understanding and meaning. From the birth of rational enquiry in Ancient Greece to the development of current environmental ethics, we'll investigate key philosophical movements and thinkers that have influenced the way we perceive the world and ourselves. We'll see how philosophy involves more than abstract thinking; it is also a powerful force that helps to shape the world and can inspire positive change in ourselves and in our communities.

ADVANCE CARE PLANNING WORKSHOP BN2

Sabena Lund, Palliative Care WA

Monday 4 August, 9.30am - 12pm

We all want to have a say in what happens in the last part of our lives. By making plans that cover our future care, lifestyle, health and finances, we're not only working out what we want, but also making things easier on those around us. Find out what's involved in Advance Care Planning, how to get started, and how to talk with your family, loved ones and health care providers about your wishes for the last stage of your life. Suitable for everyone - of any age or level of health.

No charge but bookings essential.

MAGICIANS BN3

Ruperto Nunez

4 Mondays: 4 - 25 August, 1.30 - 3.30pm

For many centuries sorcerers of Egypt and Babylonia were consulted to predict the future and repel evil. In 1628, Pope Urban VIII, fearing that a coming eclipse portended his death, called upon friar Tomasso Campanella who, through a magical ritual, allayed his fears. Magic existed as a systemic spiritual practice through the 18th and 19th centuries, despite some hostility. The Golden Dawn, a British society founded in 1888, had a strong influence on magic and esoteric thought in the English-speaking world. Come and tell us your experience with magic!

INTRO TO SCREEN PRINTING with cut out stencils FB6 Odile Bell

Friday 19 September, 10am - 1pm

Learn the basic techniques of screen printing. Using cut-out stencils is a good technique to start with, very effective for simple designs with bold lines. Time permitting, you'll go home with your own design printed on a tote bag, some fabric and/or a poster, and an instruction booklet to help you continue your printing journey at home. Bring along some simple stencil ideas printed or drawn on A4 sheets of paper. We will be using eco-friendly water-based screen-printing inks. All material and equipment provided but bring your own fabric or tee-shirt to print on if you wish (natural fibres, light colours only). No experience needed.

INTRO TO SCREEN PRINTING with drawing fluid FB7 Odile Bell

Friday 26 September, 10am - 1.30pm

Learn the basic techniques of another screen-printing technique using drawing fluid and screen filler. You will paint your design directly onto the screen with drawing fluid - this suits more intricate and detailed designs difficult to achieve using a hand-cutout stencil. All material and equipment provided but you can also bring your own fabric or tee-shirt to print on if you wish (natural fibres, light colours only). No experience needed.

WHO WE ARE

Glyde-In Community Learning Centre has been operating since 1981. We offer courses, talks and activities that we hope will enrich members' enjoyment and knowledge, and foster a healthy community life. We aim to be a source of learning that doesn't cost the earth, that doesn't need prior knowledge or qualifications, and asks only a small commitment of time. Our courses are non-competitive and informal.

Glyde-In is a not-for-profit organisation managed by a

volunteer management committee. Our staff members work part time, and our volunteers play a significant role in the life of the Centre. A copy of Glyde-In's constitution can be found on our website.

Most of our funding is generated through membership and course fees. We are also grateful for the support of the Town of East Fremantle through provision of our building and ongoing operational funding.

HOW TO ENROL

Enrolments open Wednesday 23 July at 8.30am in person (or online from 9am) and continue through the term, spaces permitting.

Any enrolments received early are processed on Enrolment Day. If your choice of activity is full you will be placed on a waitlist and we'll contact you if a place becomes available. All courses require a minimum number of enrolments to proceed. We will let you know if a course is cancelled.

Please choose carefully as refunds or credits are not issued if you cancel after enrolment week. However if you find that you can't attend, you're welcome to transfer your booking to another person; just let us know if you do.

We appreciate notification if you are not able to attend on the day.

Our enrolment form is on the last two pages and has a list of all courses and activities. Simply place an **X** against the ones you want. Circle the fees that apply, complete your name, membership and payment details. **A separate form is required for each person enrolling.**

Your receipt will list everything you're booked into and any for which you're on a wait list, as well as a list of things you might need to bring on the day, e.g. for an art class.

Non-members are able to take part in a single class or event per calendar year. If you wish to enrol in further activities, then a membership fee is required.

FEATURED ACTIVITY - OUT & ABOUT - THE GIANTS OF MANDURAH

This tour took place in the middle of May and, fortuitously, in the middle of a glorious spell of WA Autumn sunshine.

After a little hiccup at the start caused by a hire bus with a flat battery we got going only slightly later than scheduled and headed for our first giant. This fellow was at the end of a 1.8 km trail through beautiful tuart woodland which was a treat in itself. At the end was waiting Little Lui who, at more than 5m high, was anything but little. He was not at all obvious until you were very close as he had been positioned behind a fallen tree and was leaning back on the roots, some of which had been cleverly incorporated into his hair.

After a coffee stop we headed off for our next large chap named Yaburgurt Winjan Cirkelstone. He is holding a large rock which is possibly ready to aim at anybody who tries to burn him down as sadly happened to his predecessor. He was only a short walk from the bus and beautifully situated at Coodanup on the edge of the Peel inlet.

It was now time for lunch which we had at the Peel Alehouse near Halls Head after which we again embussed and headed off to meet Santi Ikto, a

7m high character who looks as if he is paying homage to the sun when it dips below the horizon as he looks out over a striking beach prospect.

The last of our Giants, named Seba's Song, is on a breakwater on the inlet end of the Dawsville Cut and is looking out over the water. Some of us were rewarded by the sight of a couple of dolphins who, in the absence of a boat, would get the best view of this giant.

These giants were created by a Dane named Thomas Dambo who is the subject of a very interesting TedX talk available on YouTube and are made entirely from re-cycled timber, mainly pallets

A most enjoyable day out thanks to driver Trish and all fellow participants.
